

PROJECT **SGI SWISS MANUFACTURING FACILITY**

OUR ROLE Development Manager

CLIENT Silicon Graphics, Inc.

ARCHITECT Studios Architecture

SIZE 100,000 square feet

TYPE Office, Tenant Improvements

ADDRESS Chemin des Rochettes 2, 2016 Cortaillod, Switzerland

STATUS Complete 1998

DESCRIPTION Silicon Graphics expanded globally in 1998 with the addition of a state-of-the-art European-based manufacturing facility. Though located amidst the grandeur of the Swiss Alps, the project was designed and managed from the San Francisco Bay Area. D. R. YOUNG ASSOCIATES lead the intercontinental development, teaming with on-site project managers to insure the facility met SGI's specifications. The 100,000 square foot project successfully expanded SGI's global footprint and highlights D. R. YOUNG ASSOCIATES' ability to manage projects in remote locations.
